Conference for connected
security technology

English

Conference programme

Security meets Smart Building:
**Digitalisation and connected
security technology in future
buildings**

12. + 13. 3. 2019

www.intersec-forum.com

Hall 10.3
Stand D10

Tuesday, 12. 3. 2019

Semantic interoperability: platforms and protocols

10:00 – 10:15

Opening of the Intersec Forum 2019
Bernhard Heuvelmann, Chairman

10:15 – 10:45

Interoperability of intelligent systems in buildings

Peter Kellendonk, Chairman of the Board, EEBUS

10:45 – 11:15

Interoperability in security technology: control of different systems via a single platform

Kai Eckstein, Key-Account Manager, Advancis Software & Services

11:15 – 11:45

Interoperability and cyber security of connected heating/clima automation solutions

Bernhard Doerstel, Senior Vice-President, ABB / Busch-Jaeger Elektro

11:45 – 12:15

Q & A session with the speakers

Chaired by: Bernhard Heuvelmann

12:15 – 13:00

Break

Cyber security: connectivity and new business models

13:00 – 13:30

"home smart home..." – cyber security as an enabler for digitization

Frauke Greven, Referat B 25, German Federal Office for Information Security

13:30 – 14:00

Cyber security in building technology – an inventory

Stephan Engel, Head Cyber Security, Siemens Building Technologies Deutschland

14:00 – 14:30

Cyber security strategy in OT infrastructure

Gernot Gadow, Regional Marketing Leader Germany and Central Europe, Honeywell Building Solutions

14:30 – 15:00

Secure remote connections for buildings – Case Study Caverion

Michael Szücs, Head of Sales Germany, Tosibox

15:00 – 15:30

Application of IT security requirements according to IEC62443 in building automation

Peter Schönenberger, Head of Marketing and Product Management, Sauter

15:30 – 16:00

Q & A session with the speakers

Chaired by: Bernhard Heuvelmann

Wednesday, 13. 3. 2019

New requirements for planners and installers: BIM and building contract law

13:00 – 13:30

How BIM and Security are related

Prof. Dr. Frank Ehrenheim, Department Facility Management, TH Mittelhessen University of Applied Sciences

13:30 – 14:00

BIM in safety technology: current status from the point of view of a specialist planner

Markus Groben, Managing Director, Groben Ingenieure

14:00 – 14:30

From "BIM Reference Object in Germany" to "Mittelstand 4.0 Competence Center Planning and Building"

Georg Schneider, Research Associate, Fraunhofer IBP

14:30 – 15:00

Designing safety technology for the future in a predictable way

Jürgen Rumenev, Senior Consultant Security, Siemens Building Technologies Deutschland

15:00 – 15:30

One year of new building contract law: current and future challenges

Dr. Thomas Rütten, Lawyer and specialist lawyer for construction and architectural law, Kapellmann und Partner Attorneys

15:30 – 16:00

Q & A session with the speakers

Chaired by: Bernhard Heuvelmann

Fire protection: early detection and alarming

10:00 – 10:30

Software-assisted fire detection – intelligent and foolproof

Carsten Meißner, Senior Consultant Solution Safety, Siemens Building Technologies Deutschland

10:30 – 11:00

Early recognition: from an idea to (laboratory) experiments into practice

Dr.-Ing. Sebastian Festag, Business Unit Manager Market Development, Hekatron

11:00 – 11:30

IP connected public address and voice alarm systems

David Ziegler, Portfolio Manager, Bosch Building Technologies

11:30 – 12:00

From the supply air to the outflow – intelligent smoke protection pressure equipment

Christoph Sommer, Head of Technical Department, STG-BEIKIRCH

12:00 – 13:00

Break

Subject to alterations. State March 2019
