Visitor groups: HVAC trade and industry, specialist planners and engineers, trade, architects, interior architects, designers, construction and housing industry, suppliers, building and energy service providers, investors and municipalities

### Guiding theme: "Solutions for a sustainable future".

At **ISH 2023**, everything revolves around innovations that contribute to the achievement of climate protection targets and enable the responsible and efficient use of available resources.

The **ISH Water** section focuses on modern bathroom design and sustainable technology in the use of water. The focus here is on the resource-saving use and security of supply of drinking water as well as the sustainability of the bathroom for all generations.

In the **ISH Energy** section, the focus is on future technologies in the heating market. The expansion of renewable energies, decarbonisation, greater energy efficiency, the use of heat pump technology and the use of hydrogen are the central themes.

In addition, the overarching theme of CO<sub>2</sub> reduction and energy saving will also be taken up in the field of **air** and is reflected in the top theme "**Indoor-Air Quality**".

Other key topics include **home and building automation** and **start-ups as drivers of innovation in the industry**.
