Solutions
for a
sustainable
future.

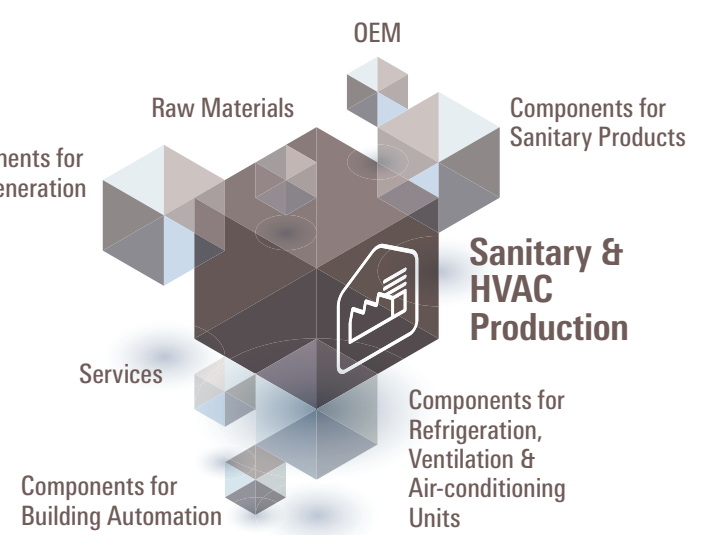

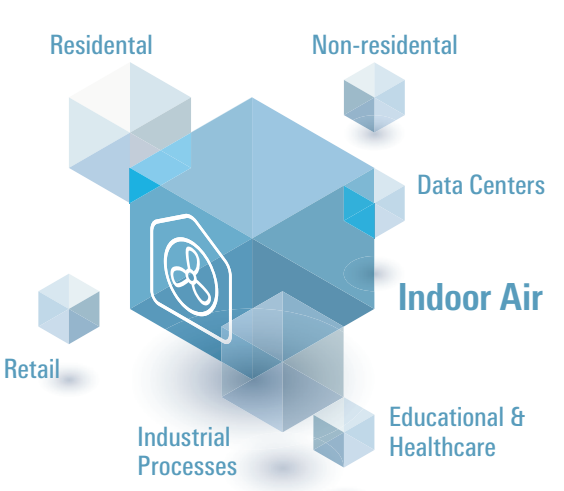

World's leading trade fair for
HVAC + Water

Join us in
shaping the
future!

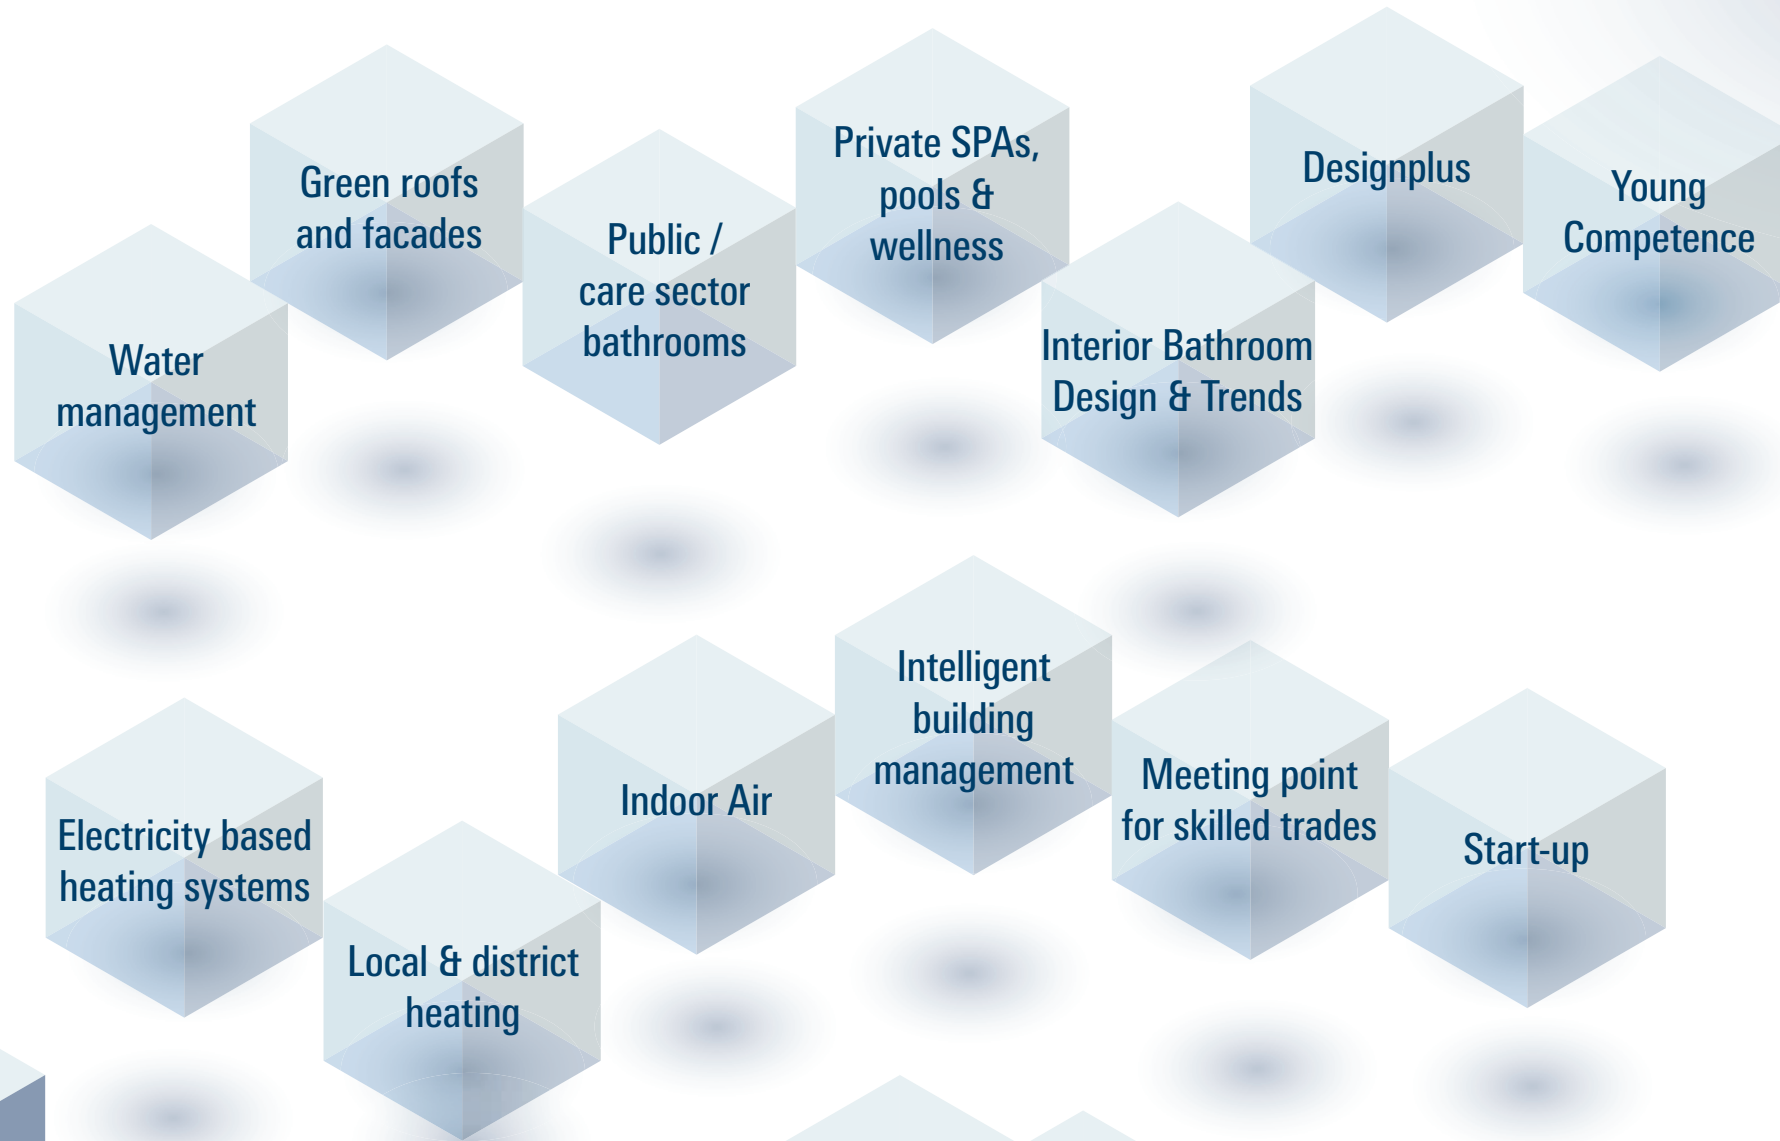

ISH 2025 on new paths

- Experience a new ISH that places the **interests and individual** trade fair **experience** of visitors much more **centre stage!**
 - We have developed a concept that is **precisely tailored** to the **different needs and interests** of our diverse target groups.
 - Instead of just presenting products, we are focussing on **solution-oriented applications**.
 - **Content and Live-Events** will be an **integral part of ISH**. We want to turn the ISH into a real event and are gearing the content more towards an international audience.
- Under the motto "**Solutions for a sustainable future**", all participants can expect a new, **clear and modern** trade fair **structure**.
- By defining 8 solution fields and their areas of application, we are addressing the relevant interests of the various visitor target groups.
- The topics of sustainability and digitalisation run through all solution fields and are the focus of our communication.
