ISH 2027: The world's leading trade fair for HVAC + Water

„The Power of Solutions“

15–19 March 2027

Messe Frankfurt
Ludwig-Erhard-Anlage 1, 60327 Frankfurt am Main

Opening Hours
15–18 March 2027: 9.00 am – 6.00 pm
19 March 2027: 9.00 am – 5.00 pm

As a reference: ISH 2025 attracted more than 163,000 trade visitors from 149 countries and 2,183 exhibitors to Frankfurt.

The Power of Solutions
ISH is the world's leading trade fair for HVAC + water and the international meeting place for the building technology of the future. It brings together manufacturers, planners, architects, designers, skilled trades, retailers, operators and other decision-makers from around the world.

Under the strategic umbrella of “The Power of Solutions”, ISH 2027 demonstrates how cross-system solutions combining water, heating, air, intelligent control and design can help make buildings more efficient, resilient, comfortable and fit for the future.

The focus is on key challenges facing the industry: modernising existing building stock, energy and resource efficiency, water resilience, the transition to sustainable heating, comfort and wellbeing, as well as smart building control and digitalisation.

To help visitors navigate the range efficiently, ISH 2027 organises exhibitors and offerings into eight solution fields:

- Bathrooms
- Pools & Spas
- Water-Bearing Systems
- Installation
- Heat Generation
- Indoor Air
- Intelligent Building Management
- Software
- Sanitary & HVAC Production

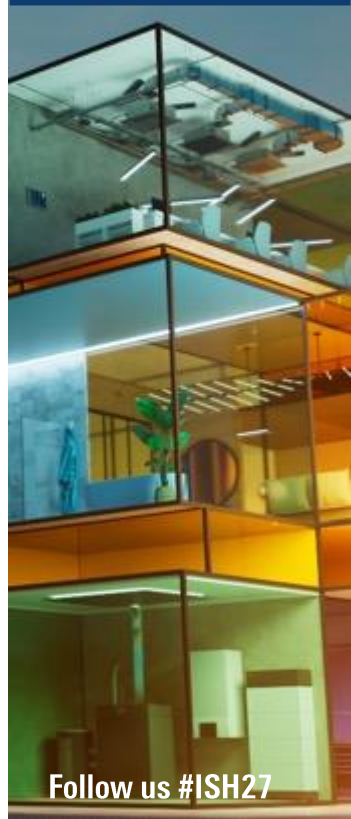

A comprehensive programme of events and congresses complements the exhibition. Specialist forums, congresses, guided tours and other formats provide orientation on current industry developments and solutions.

Visitor Groups
Plumbing, heating, air-conditioning and refrigeration trades and industry, TGA/MEP planners, engineers, architects, interior architects, designers and bathroom planners, the construction, real estate and housing sectors, operators and facility management, investors, wholesale and distribution, procurement and OEMs, energy consultants, authorities and public institutions, utility companies, as well as decision-makers from hospitality, healthcare and care.
